【November is JAS Promotion Month: JAS promotes the characteristics of the product】

If you have seen this logo, you are a Japan connoisseur recognized by MAFF-Japan!

This is the Specific #JAS logo that combines the symbol of Japan, Mt. Fuji, and the sun, which is reminiscent of the Japanese national flag. This logo is carried by products that have unique features, such as products produced by traditional Japanese methods or valued-added products.

You can find this logo on the following products:

- Hand-made Japanese noodles using a traditional method inherited from the Edo period
- Foods produced with the participation of persons with disabilities with the aim of creating a sustainable and inclusive society
- Textured soy protein products for the plant-based food market

Please look for the Specific JAS logo !

Please see the JAS website for more information about JAS.
